

One unified platform.
Total control.

Scaling globally shouldn't mean more complexity. Deel unifies hiring, payroll, and compliance into one platform—so you can expand into new markets quickly and confidently. Built on AWS and available on AWS Marketplace for fast, frictionless procurement.

	Chinara W.		Nigeria	Direct employee	NGN 21,000,000
	Michel B.		Netherlands	Local employee	€68,000.00
	Lena A.		Greece	Contractor	€33,000.00

Pay contractors anywhere with
15+ contractor payment methods

Consolidate contractor payments into a single, streamlined workflow. No more juggling multiple suppliers, currencies, or country-specific processes.

Access talent across
150+ countries

Purchase in just a few clicks on AWS Marketplace, streamline your time-to-operate, and start hiring in days, not weeks. Bring in top talent from any market, expand your business, while Deel scales alongside you.

Ensure compliance and readiness

Company leaders stay ready with consolidated global compliance: SOC2 Type II, ISO/IEC 27001, GDPR, and AES-256 encryption. You stay audit-ready, funding-ready, and focused on growth, while we handle the complexities behind the scenes.

“Our investors backed us to build world-class AI, not to become experts in global payroll. Deel automates the entire compliance and HR stack, letting our team stay 100% focused on what actually generates revenue: building our product.”

Jeff Gibson,
Founder, Kintsugi

Powerful HR and payroll solutions at your fingertips
