FAQ

Unify global payroll management with Deel & SAP S/4HANA

d.

CLAIRE'S NEW EXPENSE

\$200

Streamline payroll management
Optimize payroll operations with on-demand data synchronization, ensuring information is consistently shared between both systems.

Claire Antonis

Monthly payment

One off payment

Bi-monthly payment

Enhance data accuracy
Reduce time spent on manual entry by automatically syncing global payroll. General Ledgers generated from Deel are seamlessly mapped to corresponding S/4HANA accounts.

JOURNAL ENTRY

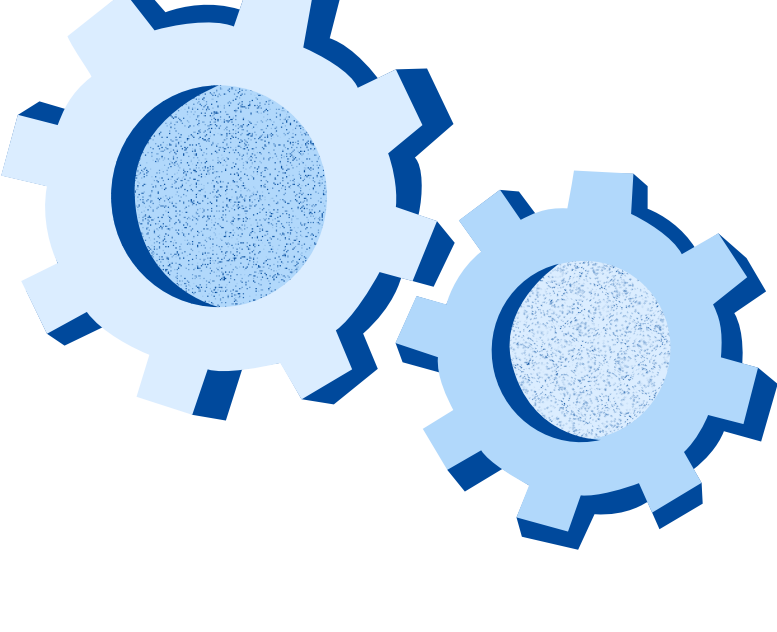

d.

SAP S/4 HANA

Minimize configuration time
Mapping configurations are securely stored during the initial integration, ensuring consistent and efficient payroll syncs for every cycle.

Simplify finance workflows all in one place

SAP S/4 HANA

Deel's integration with SAP S/4HANA empowers you to effortlessly sync Global Payroll journal entries. General Ledgers generated or submitted through Deel are directly sent to your SAP S/4HANA account, streamlining your financial management processes.

Sync your General Ledger (GL)
Easily transfer payroll journal entries from Deel to SAP S/4HANA after approving the payroll cycle. Stored mappings auto-populate after setup, ensuring a seamless process for future payroll periods.

Map custom data effortlessly
Map Deel's General Ledger accounts with optional customization for dimensions like profit centers, cost centers, or segments, ensuring your financial records are always updated and aligned with your payroll activities.

Control payroll sync time
Simplify your workflow and stay in control by syncing data to SAP S/4HANA for each payroll cycle in just one click.

How to get started

01

Generate credentials

Link your Deel and SAP S/4HANA accounts by connecting and configuring an integration with the proper access permissions.

02

Map General Ledger values

Map and configure GL values in Deel to corresponding SAP S/4HANA accounts. Optionally map custom Deel dimensions, like departments, to segments, cost centers, or profit centers within SAP S/4HANA

03

Confirm and review journal entry

Once the payroll journal entry has synced successfully, easily verify the sync details directly in S/4HANA.

Including: Expensify - Zapier - Jira - Vanta - Harvest - Navan - Skovik and more!

Frequently Asked Questions

Can any customer use Deel integrations?

Absolutely! Deel integrations are designed to be versatile and can be used by customers of all sizes. Whether you're a small business or a large enterprise, our integrations are tailored to suit your needs.

What is the cost of Deel integrations?

Most Deel integrations and APIs are free to use and easy to implement. Implementation services for Global Payroll HRIS/HCM connectors are now offered as a premium service to ensure the appropriate level of support for more complex or customized setups. For details, connect with your Deel representative.

How long does the implementation process take?

The implementation time for Deel integrations depends on the complexity of your setup and the number of integrations you require. Generally, our team works efficiently to ensure a smooth and timely implementation.

How can I get started with Deel integrations?

To get started with Deel integrations, simply visit our [integration page](#) to explore the available options.

Do you provide support during the implementation process?

Yes, please reach out to your customer support representative to get assistance.

Still have questions? We've got answers.
